

1

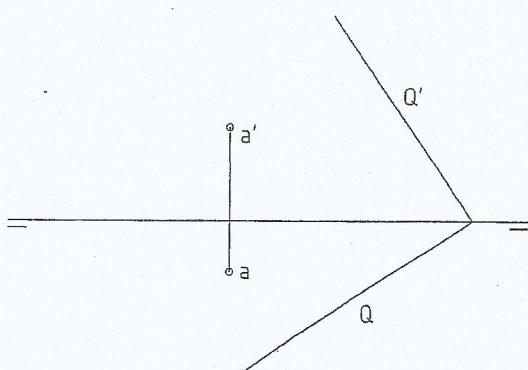

Por la recta R trazar un plano perpendicular a H.

2

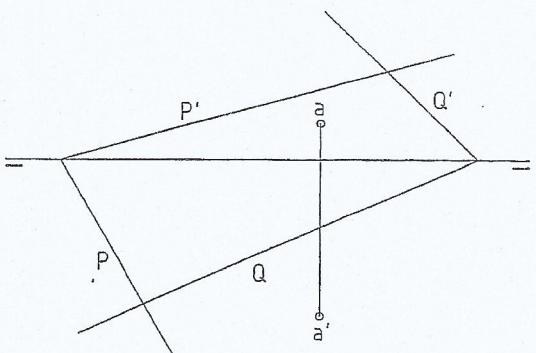

Por el punto A trazar un plano perpendicular a la recta R.

3

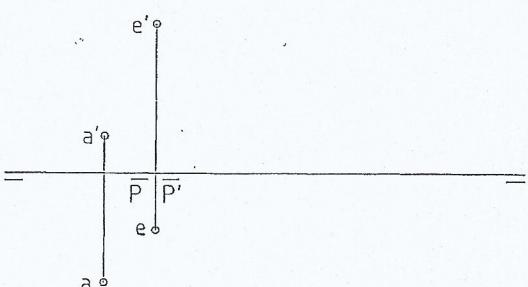

Representar el plano P, perpendicular a Q y al PH, que pasa por el punto A.

4

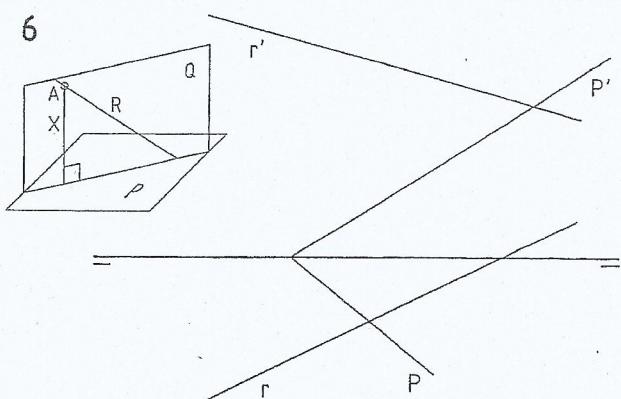

Por el punto A trazar un plano perpendicular a P y Q.

5

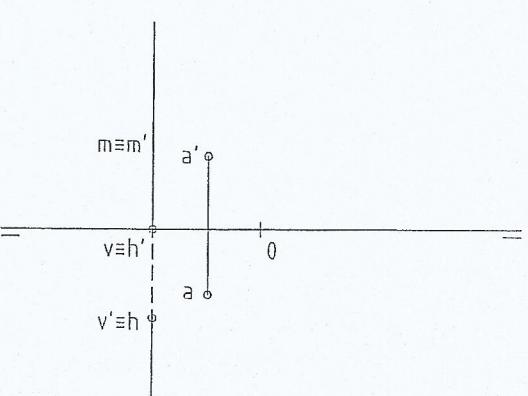

Por el punto A trazar una recta perpendicular al plano P.

6

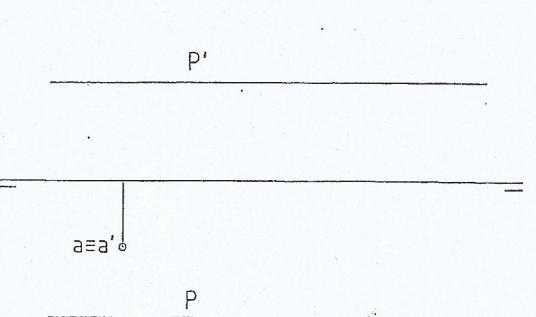

Por la recta R trazar el plano perpendicular al plano P.

7

Por el punto A, trazar un plano perpendicular a la recta M.

8

Por el punto A trazar la recta R, perpendicular al plano P.
