

# 6.2 Happy Performer

## Intro

Having seen the gorgeous dance of those aborigines, Mike really wants to accompany them. Now, let's learn how to play music!

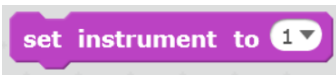

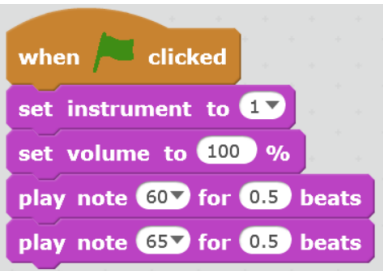

## Task

1. Teach Mike how to play music, both manually and automatically, and how to import/export a list.

## Start Learning

### 1. Scratch 2.0 Sound Module

Scratch 2.0 comes with sound module which enables us to play beautiful music.

Block	Explanation	Example
	Scratch2.0 provides 21 types of instruments, including piano, violin, etc.	
	Set the beats	
	Set the volume	

### ★ Practice

Choose one instrument you like and use  to play 1, 2, 3, 4, 5, 6, 7 (do, re, mi, fa, so, la, ti).

### ☆ Explore

Program to control the playing via keyboard. See the below diagram which plays "do".

### 2. Auto Play

Mike has known how to play a single note, but will him be able to auto play a song? Let's first practice how to play the notes of "Twinkle, twinkle, little star, how I wonder what you are". There are 2 ways:

- 1) Pile up single note

## 2) Make a List

List can store a great deal of data, thus we can save the consecutive notes into a list. See the below diagram: Click "Data" - "Make a List" - name it as "Little Star", and "Ok" to save.

Then you will see a list on the stage. Click "+" to add a note.

Block	Explanation	Example
	Add data to the list.	
	Delete .. from the list.	
	Replace one item from the list.	
	Read one specific item from the list; Get the length of the list; Determine whether the list	

contains a specific item.

★ Practice

Upload "Mike.png".

Sprite	Program	Effect
 <p>Mike</p>	<pre> when green flag clicked   go back 1 layers   forever loop     play note item 1 of Little Star for 0.5 beats     play note item 2 of Little Star for 0.5 beats     play note item 3 of Little Star for 0.5 beats     play note item 4 of Little Star for 0.5 beats     play note item 5 of Little Star for 0.5 beats     play note item 6 of Little Star for 0.5 beats     play note item 7 of Little Star for 1 beats     play note item 8 of Little Star for 0.5 beats     play note item 9 of Little Star for 0.5 beats     play note item 10 of Little Star for 0.5 beats     play note item 11 of Little Star for 0.5 beats     play note item 12 of Little Star for 0.5 beats     play note item 13 of Little Star for 0.5 beats     play note item 14 of Little Star for 1 beats           </pre>	

**Additional Training**

We may find out that we are actually using the same blocks repeatedly except the numbers may be different from each other. Can we find a way to eliminate these reduplications by looping? Can we add a beat-list to make the playing smooth? (Tips: create a new variable)

Sprite	Program	Effect																		
 <p>Mike</p>	<pre> when green flag clicked   set instrument to 18   set tempo to 150 bpm   set order to 1   repeat length of notes     play note item order of notes for item order of beats beats     change order by 1           </pre>	 <table border="1"> <thead> <tr> <th>notes</th> <th>beats</th> </tr> </thead> <tbody> <tr><td>1</td><td>60</td></tr> <tr><td>2</td><td>60</td></tr> <tr><td>3</td><td>60</td></tr> <tr><td>4</td><td>60</td></tr> <tr><td>5</td><td>60</td></tr> <tr><td>6</td><td>60</td></tr> <tr><td>7</td><td>64</td></tr> <tr><td>8</td><td>67</td></tr> </tbody> </table>	notes	beats	1	60	2	60	3	60	4	60	5	60	6	60	7	64	8	67
notes	beats																			
1	60																			
2	60																			
3	60																			
4	60																			
5	60																			
6	60																			
7	64																			
8	67																			

**Tips**

Click  and  to hide variable and list on the stage.

**Homework**

Program to play the whole song of *Twinkle Twinkle Little Star*.
