INTRODUCCIÓ AL RDP

1.1 QUÈ ÉS?

Segons Castañeda (2013), el relat digital és una pràctica que **combina múltiples formats tecnològics**, com ara fotografies, text, música, narracions d'àudio i videoclips, **amb l'objectiu de produir una història irresistible, emocional i profunda**. Els curtsmetratges en format digital solen tenir una durada d'entre tres i cinc minuts. Els arguments poden incloure relats personals que capturen moments decisius en la vida d'una persona, històries d'èxit, memòries que honoren persones especials i inquietuds comunitàries.

1.1 QUÈ ÉS?

Per a Lambert (2002), ha de tenir set elements:

1. Punt de vista.
2. Interrogant dramàtic.
3. L'emoció.
4. La veu.
5. La música.
6. L'economia en la narració.
7. El ritme narratiu.

1.2 PER QUÈ UTILITZAR-LO A L'AULA?

- Les perspectives humanistes en educació lingüística han emfatitzat la importància d'estudiar l'aprenent de L2 i les seues identitats (Harmer, 2016).
- L'alumnat d'educació secundària travessa un procés complex de construcció de la seua identitat, la qual sovint s'expressa en entorns digitals on utilitzen eines tecnològiques.
- El Relat Digital Personal (RDP) és una opció a considerar pel seu gran potencial per a expandir les identitats de l'alumnat mentre desenvolupen habilitats lingüístiques.
