Partners CEIP Cronista Chabret (ES) , KAZIM TASKIN ILKOKULU (TR)
Topics Bridging intercultural, intergenerational and social divide ; Creativity, arts and culture ; New learning and teaching methods and approaches

Project Summary

Objectives

Countries implement various policies to support disadvantaged individuals' basic skills such as social, emotional, cognitive, language and motor development at maximum level and to ensure that they take an active role in a democratic society. Many countries are turning to different and innovative approaches in the field of education. With our project, we focused on our disadvantaged students to gain them self-confidence with an artistic touch and to shape their lives.

Activities

A1: Drama and music with artistic touch

A2: Hobby garden, artistic touch with recycling decorative materials

A3: Art therapy, shadow play, artistic touch with story activity

In addition, each institution will organize local events after each activity return.

The COVID-19 outbreak proved that educators should always be ready to convey their activities online. If COVID continues, preparations will be made for online events.

Impact

Our teachers, who have gained experience in the project, will meet the physical, mental and psychological needs of the students with artistic activities.

It will be ensured that students become beneficial individuals for society by developing their abilities and self-confidence and making them more social. In terms of schools, thanks to transnational partnerships, improvement in quality, achievement of strategic goals, and meeting with different cultures in Europe will be provided.
