	Do you have a happy family?
	By Dr Claudia Wong
	It is hard for busy families to be happy. You get home from work late at night. Your children play sports or do other activities. There are so many things to do every day. You don't even eat meals together. It feels like you don't spend much time as a family.
	There is good news. It is possible for busy families to be happy. In fact, it is easy to make these changes.
	1. Try to have one special "Family Night" each week. Choose a Friday, Saturday, or Sunday and spend it together. Play games! Talk about your days! Have fun!
	2. Eat one meal together. Have breakfast, lunch, or dinner as a family. Mothers, fathers, sisters and brothers need to spend time together. Ask questions about work and school. This allows you to learn about your family members' days.
_	3. Does your family watch a lot of TV? Do you play games on your phones? Go outside! Happy families don't stay in the house. There are many ways to do this. Go for a walk, visit the beach, or sit in the park!
