

Moican style cut

1. We protect the client with a towel to proceed with the washing
2. We protect the client with a towel to proceed with the washing
3. We accompany our client back to the dressing room to start with the cut
4. We start by sectioning our hair to organize the cut as long as the hair allows it.

5. Starting at the nape of the neck, helping us with the foot and scissors, we shape the cut to the nape of the neck.

6.
We lower the sides with a comb and scissors
to then pass the machine

Once we have passed the machine and we have already given the desired result on the sides....

7. We cut the upper section to projection of 90

8. Customize the style of cut to suit our client
