## COTTON TEARS

El nostre mural tracta d'un ésser humà que està fent un mal ús de l'aigua només per "vestir bé" o a la moda. La indústria tèxtil és una de les principals causants del desaprofitament de l'aigua a nivell global, a l'any s'usen 92 milions de tones d'aigua per a fer roba i es tiren trenta quilos a l'any sense oportunitat de ser donada o reutilitzada.

Al seu costat està la personificació de l'aigua preocupat perquè cada vegada està sent més contaminada per l'ús desmesurat a causa del consumisme innecessari. El nostre propòsit amb aquest mural és conscienciar a la gent que s'usa l'aigua fins per a vestir, però està no és il·limitada.

Hem de cuidar-la i respectar-la per a donar-li un bon ús.

Our mural is about a human being who is misusing water just to "dress well" or fashionably. The textile industry is one of the main causes of water waste globally, 92 million tons of water are used annually to make clothes and thirty kilos a year are thrown away without the opportunity to be donated or reused.

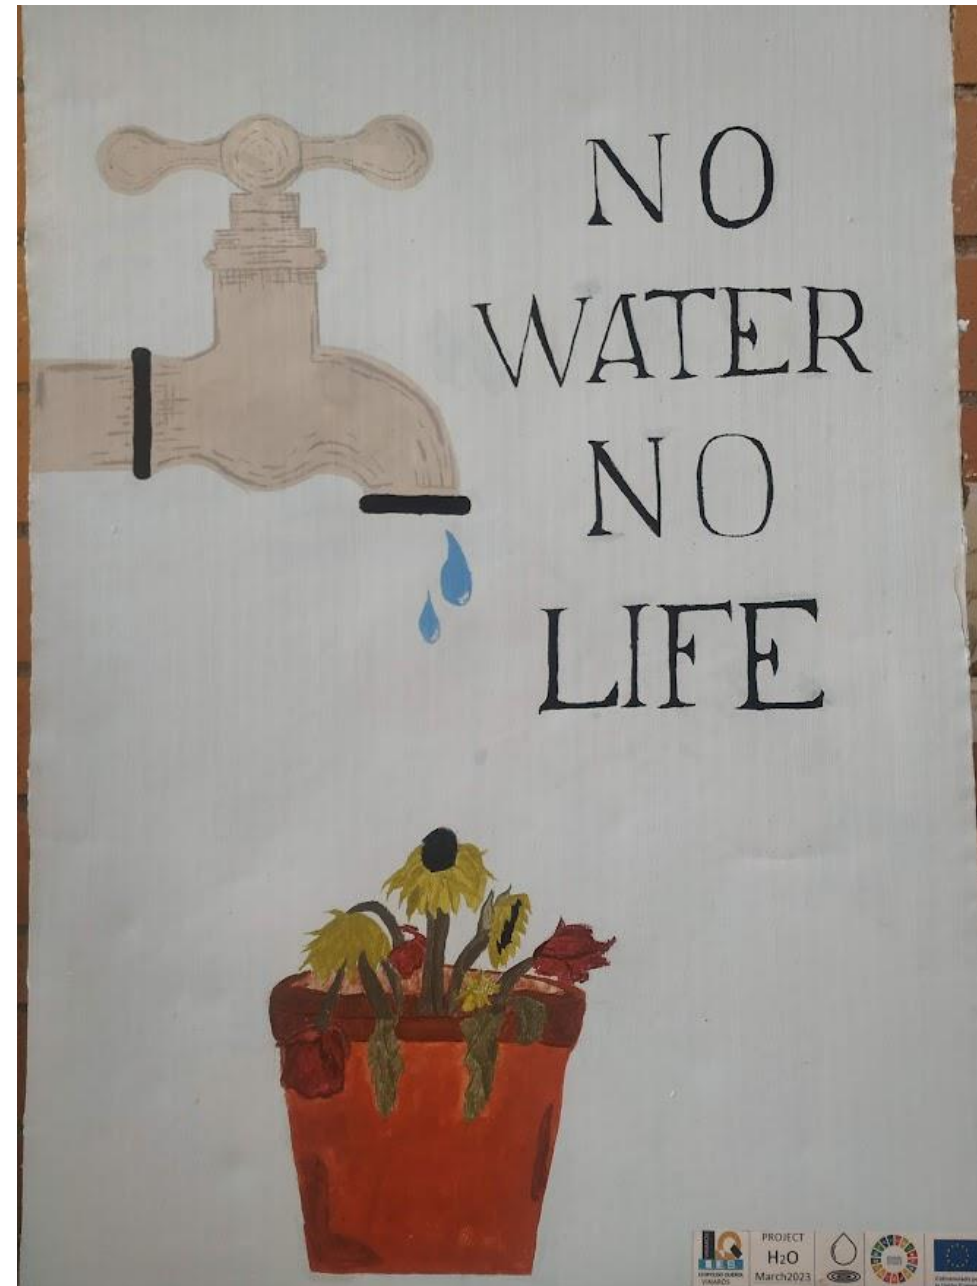

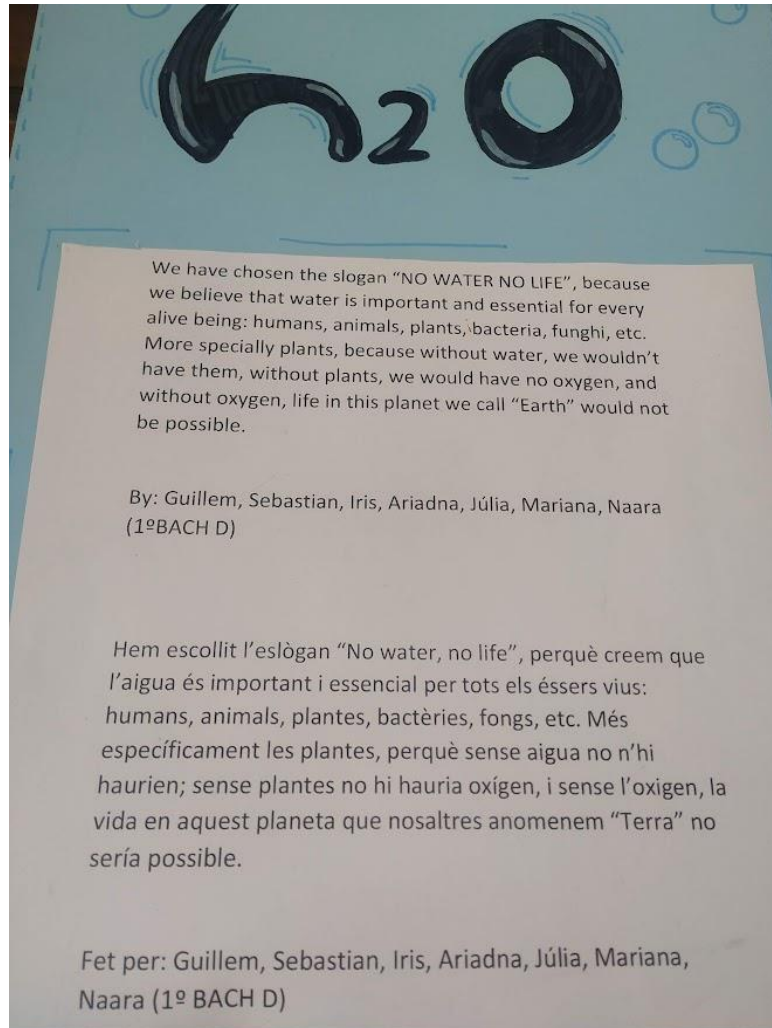

Next to it is the personification of water, worried that it is becoming more and more polluted by the excessive use of water due to unnecessary consumerism.

Our purpose with this mural is to make people aware that water is used even for clothing, but it is not unlimited. We have to take care of it and respect it to give it a good use.

By: Alex, Alexander, Maia, Susi, Dani, Reichel, Leila and Irene from Bach 1D.
