

Sports traditions
in
Tallinn Technical
Gymnasium

Sport plays
an important
role in
Estonian
culture.

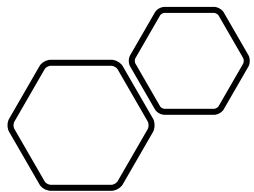

Physical
education is
a part of
the
educational
curriculum.

Sport has long been the most common hobby education among schoolchildren.

The school year
2021-2022
is "The Year of
Sports" in Estonian
schools.

Tallinn Technical Gymnasium
has its own sports
traditions.

**Tallinn Technical
Gymnasium**
offers physical
education and has
its own gym and
play areas.

**Year 3
students
have got
several weeks
of swimming
lessons
followed by an
exam.**

All school
students have
several weeks
of skiing
lessons every
winter.

Young bikers can
improve their
skills in the school
yard.

Estonia's beautiful nature offers many interesting possibilities for outdoor sport.

One of the winter sports attractions of our area is the ice-skating rink.

Teachers and students often use the possibility to have fun outside.

There are many
ball courts and
outside gyms.

Bring your ball
and use the
courts for free.

**Enjoy sport as
we do!**

**Thank you for
attention!**
