

Erasmus+ Solidarity Cookie Event: Growing the First European Seed at IES Oleana

On March 30th, our Erasmus+ Stall was filled with music, the sweet aroma of freshly baked cookies, and a truly European atmosphere thanks to the Erasmus+ Solidarity Cookie Event, organised to celebrate the pairing of students participating in the mobility flows of the project First Seed Erasmus+@IES Oleana.

During the event, students from Flows 1 and 2 presented to their peers and teachers the main objectives of the project, its connection with the school's 50/50 Environmental Awareness Programme, and the values of sustainability, inclusion and democracy that define our commitment to the Erasmus+ Programme.

The individually wrapped chocolate chip cookies were a great success, helping to raise funds to add to those from Jornadas Gastronómicas Solidarias-I.E.S. Oleana 2026.

The space was decorated with informative panels, photographs, European music and, above all, enthusiasm. Students shared firsthand how their mobilities to Germany and the future visit to the European Parliament are allowing them to grow as critical, multilingual citizens committed to the Sustainable Development Goals.

This activity not only sweetened the day, but also strengthened our school's European spirit and reminded us that internationalisation does not begin when we travel abroad. It begins when we take part in shared initiatives that help us grow as a community.

The First Erasmus+ Seed continues to germinate in our school. Thank you to everyone who took part, supported the initiative, and helped make this moment such a special one.
